Over the last several years, new megatrends around edge, cloud, and data have emerged to shape customer expectations for enterprise technology. First, data at the edge is increasing exponentially, driven by the proliferation of devices that require secure connectivity to enable reliable digital experiences. Second, enterprises need a cloud experience everywhere to manage data and workloads wherever they live across a distributed enterprise. Third, data growth is creating countless new opportunities to generate meaningful business insights. Customer response to these megatrends has been accelerated by the pandemic and the increasing pace of technological innovation. [Read More](#) [↗](#)
